

with the benefits of biodiesel, a relatively new fuel option in the United States. It will also address concerns previously identified by fleet operators and other potential users of this alternative fuel, including the need to balance the positive environmental, social and human health impacts of biodiesel utilization with the increased per gallon cost to the user. It is the Program's goal to stimulate biodiesel demand and encourage the further development of a biodiesel industry in the United States.

#### **§ 2903.3 Eligibility.**

(a) Eligibility is limited to nonprofit organizations and institutions of higher education that have demonstrated both knowledge of biodiesel fuel production, use, or distribution and the ability to conduct educational and technical support programs.

(b) Award recipients may subcontract to organizations not eligible to apply provided such organizations are necessary for the conduct of the project.

#### **§ 2903.4 Indirect costs.**

(a) For the Biodiesel Fuel Education Program, applicants should use the current indirect cost rate negotiated with the cognizant Federal negotiating agency. Indirect costs may not exceed the negotiated rate. If no indirect cost rate has been negotiated, a reasonable dollar amount for indirect costs may be requested, which will be subject to approval by USDA. In the latter case, if a proposal is recommended for funding, an indirect cost rate proposal must be submitted prior to award to support the amount of indirect costs requested.

(b) A proposer may elect not to charge indirect costs and, instead, charge only direct costs to grant funds. Grantees electing this alternative will not be allowed to charge, as direct costs, indirect costs that otherwise would be in the grantee's indirect cost pool under the applicable Office of Management and Budget cost principles. Grantees who request no indirect costs will not be permitted to revise their budgets at a later date to charge indirect costs to grant funds.

#### **§ 2903.5 Matching requirements.**

There are no matching funds requirements for the Biodiesel Fuel Education

Program and matching resources will not be factored into the review process as evaluation criteria.

### **Subpart B—Program Description**

#### **§ 2903.6 Project types.**

OEPNU intends to award continuation grants to successful Biodiesel Fuel Education Program applicants. A continuation grant is a grant instrument by which the Department agrees to support a specified level of effort for a predetermined project period with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued government support would be in the best interest of the Federal government and the public. If these three elements are met, OEPNU plans to provide additional support to the funded project(s).

#### **§ 2903.7 Project objectives.**

(a) Successful projects will develop practical indicators or milestones to measure their progress towards achieving the following objectives:

- (1) Enhance current efforts to collect and disseminate biodiesel information;
- (2) Coordinate with other biodiesel educational or promotional programs, and with Federal, State and local programs aimed at encouraging biodiesel use, including the EPAct program;
- (3) Create a nationwide networking system that delivers biodiesel information to targeted audiences, including users, distributors and other infrastructure-related personnel;
- (4) Identify and document the benefits of biodiesel (*e.g.*, lifecycle costing); and
- (5) Gather data pertaining to information gaps and develop strategies to address the gaps.

(b) [Reserved]

### **Subpart C—Preparation of an Application**

#### **§ 2903.8 Program application materials.**

OEPNU will publish periodic program announcements to notify potential applicants of the availability of funds for
